Dear Gentlemen:

The New York State Department of Transportation (NYSDOT) has initiated design for the above-captioned project, which is scheduled to be let on March 28, 2019.

During the construction of this project, we will be replacing a concrete culvert on Pletcher Road. NYSDOT is proposing to close the portion of Pletcher Road between NY Route 18 (Creek Road) and Calkins Road. The proposed detour route will be approximately 2.6 miles and divert traffic north along NY Route 18 (Creek Road), then west/south along Calkins Road (Towns of Lewiston and Porter) to return to Pletcher Road. A map showing this detour route is enclosed for your convenience.

It is anticipated that the proposed detour will be utilized for the following construction activities:

- Demolition and removal of culvert (C082045).
- Placement of new concrete box culvert and wingwalls.
- Placement of new guiderail and reestablishing pavement.

The detour is expected to be in place for approximately three (3) weeks during construction activities; access will be maintained at all times for local traffic.

*over*

Steve Broderick, Supervisor, Town of Lewiston  
John Johnston, Supervisor, Town of Porter

Page 2

We request that the Towns provide resolutions providing authorization for NYSDOT to utilize the identified Town streets as detours during the period of construction.

If you have any questions or concerns, please contact Ms. Sanjyot Vaidya, Assistant Regional Design Engineer, at (716) 847-3222 or via email at [Sanjyot.Vaidya@dot.ny.gov](mailto:Sanjyot.Vaidya@dot.ny.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Craig S. Mozrall".

Craig S. Mozrall, P.E.
